Re: Relationship Between CVR and Illinois Plate Renewal

My name is James Kinzer, and I am legal counsel to Computerized Vehicle Registration (“CVR”). The purpose of this letter is to describe CVR’s relationship with Illinois Plate Renewal (“ILPR”) and services offered by ILPR.

First, by way of background, CVR has a contractual relationship with ILPR to facilitate the distribution of license plate renewals in Illinois. CVR and ILPR have developed an interface to allow Illinois residents to use an online renewal service in Illinois. This service gives Illinois residents the option to renew from home.

While ILPR uses CVR’s system to offer its services, these are not services CVR offers by itself. Therefore, it is CVR’s opinion that ILPR is not a reseller of CVR’s services, but instead provides separate and original services.

Sincerely,

James Kinzer
